

Conditions for participation in the initiative

Thank you for participating in this initiative. These conditions supplement the confirmation of participation in the initiative which you have received by email in connection with agreement about participation.

Traffic

Please particularly note that it is important that you keep us up-to-date as to whether your traffic figures exceed the agreed interval (calculated as average per month, stated by quarter). As we do not control this, it is your responsibility that the information is correct. This is to ensure that we purchase sufficient CO2 quotas to cover your CO2 emission.

Icon for your website

You can use the logo immediately after having paid your membership fee. You cannot use this membership to refer to yourselves as CO2 neutral in general as this initiative merely concerns your website specifically (including the use of the website). We recommend that you refer to your efforts as "our website and the use of it are CO2 neutral", not "green website" or similar as this may be misinterpreted. The icon shall follow the design from time to time determined by CO2neutralwebsite.com, however, size, colouring and position are up to you to decide.

Termination

You may terminate the agreement in writing at any time giving one month's notice. However, we will not be refunding the subscription charged from time to time as we purchase the CO2 neutralisation in advance. Please note that if you do not terminate your participation with expiry within the term of the agreement, your subscription will automatically be prolonged for one year at a time. The reason is that the quotas are purchased one year in advance and there must be no periods without purchase of quota, now that you refer to your website as CO2 neutral.

Upon termination, if any, of membership, you shall immediately remove icon, references, etc. to the initiative. This is to prevent users from believing that you still participate upon expiry.

Quota rates

Your rates for participation shall not increase in the first year. But since the rates of CO2 quotas may increase before the next term, we are liable to inform you of all increases in rates exceeding 15% in one year so that you can decide whether you still wish to participate. On increases of more than 15%, the notice of termination shall lapse, and you will be free to withdraw from the agreement giving one day's notice.

Rights, breach, damages, etc.

All rights to the concept, the icon, etc., including intellectual property rights, by way of copyrights, patents, trademark rights, design rights, etc. shall be property of CO2neutralwebsite.com.

CO2neutralwebsite.com shall not be liable to damages in any respect for any direct or indirect losses caused by this initiative, including for lost earnings, consequential losses or other consequential damage.

All conditions in confirmation of participation as well as these conditions shall be confirmed by the participant paying the participant fee or using the icon.
